
PLANT CHOICE

A - *Viburnum prunifolium* (Rusty Blackhaw)*
Viburnum cassinoides (Witherrod)
B - *Aster novae-angliae* (New England Aster) 2'o.c.* *
C - *Vaccinum angustifolium* (Blueberry), 3' o.c.
D - *Kalmia latifolia* (Mountain Laurel), 3' o.c.
E - *Iris versicolor* (Blueflag Iris), 12" o.c.
F - *Solidago* 'Golden Fleece', 2' o.c.

DESIGN VALUE

Tallest/Structural element in garden (8-12')
Medium coarse texture, white spring flowers, yellow fall color
Medium Tall perennial, billowing fall color (lavendar), butterflies
Medium height (3-5'), year round color interest, fruit
Year round interest, color mass in spring (white)
Spring color mass, interesting texture
Fall yellow mass of color, compliments Aster, butterflies

note: o.c. = on center
* prefers dry soils and is a good choice if excellent drainage is installed; otherwise substitute *Viburnum dentatum* (Southern Arrowwood)
** also listed as *Symphyrotrichum novae-angliae*
