How often do you visit Cheverly Town Park?

Answered: 150    Skipped: 0

- Never: 1
- Rarely: 7
- A couple times a year: 32
- A few times a month: 67
- More than once a week: 43
If there are any children in your household, what are their ages? (Check all that apply)

Answered: 149   Skipped: 1

- 0 – 2
- 2 – 5
- 5 – 12
- 12 +
- N/A - there are no children...
“Other” – Specifically Related to Concept Design:

- It would be great to have a water feature/sprinkler for kids on or near the playground.
- Flatten or smooth out the grassy area to make it more walking friendly. I am always afraid of spraining an ankle. For that reason, I do not visit often.
- Having a primarily undeveloped, unlit natural forest to walk through to enjoy nature, native plants, birds, insects, and other wildlife.
- Removal of invasive plants
- Access with strollers is very important to those with children. We walk to Town Park almost daily and it is challenging to get a stroller up to the playground equipment.
- Other items would be nice, but it is inaccessible right now, with inadequate parking for people with special needs, so that should be the priority upon which the rest of the decisions are made.
- More recycling cans also!!
- Everything dealing with Cheverly Day fireworks and activities.
- Pavilion/ picnic shelter/ stage: one built structure that combines these functions makes sense since we hold Cheverly Day and could hold other scheduled public events there, or after-game picnics, but its location between the town hall's parking lot and the public works is not conducive to picnics in general. Maybe some kind of terracing or other landscaping to create distinct zones that don’t feel that they are essentially in the public works building parking lot.
“Other” – Outside Area for Conceptual Design:

• Shelter and benches for our bus stops so that seniors aren't soaked or experience paid standing for long periods. The bulbs in the streetlights needs replacing.
• Updated restrooms
• Water fountains
• Boy scout involvement in establishing the troop 0257 trail head.
• Dog area / dog park / area for pets (5 respondents)
• Trail need to be maintained because a part of the walking and jogging trail always full of mud when rain falls.
• Improved running track / running trails / fitness trail (3 respondents)
• Outdoor exercise equipment
• Soccer / ball field and running track
• Baseball fields / field (2 respondents)
• Fields and usability of fields and field equipment -- specifically baseball/softball fields and the surrounding path/track.
• Ease of rental and usage. Flexibility in usage of available space. What about a party room?
Highest-ranked priorities for Cheverly Town Park

- Playground/play equipment
- Picnic shelter
- Multipurpose courts
- Stage
- Woodworth Trail
- Additional paths
- Pavilion
- Benches/seating areas
- Accessibility (ADA)
- Lighting
- Tree planting/maintenance
- Landscaping
- Erosion control
- Interpretive signage
- Other (as specified in question #5)
Familiarity with green infrastructure terms

- Stormwater: 90.00%
- Rain garden: 80.00%
- Permeable pavement: 80.00%
- Rainwater harvesting: 90.00%
- Green Infrastructure: 70.00%
- N/A - not familiar: 10.00%
Importance of incorporating green infrastructure practices into future renovations
